### ALKALINE NEUTRALIZING PRODUCT IN POWDER

Special product to neutralize the residual acidity after descaling treatment.  
Also suitable to neutralize the descaling solution before draining.

#### HOW TO USE

Dilute the **NEUTRALIZER** in water at 3-5% solution (300-500 g product in 10 liters water) and let circulate inside the plant for some minutes, and then rinse with water.

Add some **NEUTRALIZER** in small quantities, shaking the solution until there is no more effervescence. It is advisable to check that the pH value is between 6,8 and 7,5 with a litmus paper.

#### RISK CLASSIFICATION

R 36: Irritating to eyes.

#### WARNINGS

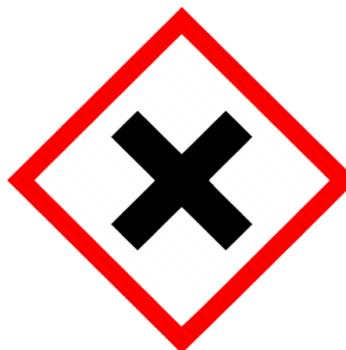

S 2 : Keep out of the reach of children.

S 22 : Do not inhale the dust.

S 26 : In case of contact with eyes, immediately wash with plenty of water and ask for a doctor.

Xi Irritant
