

# HOSE CLAMPING

## FERRULE

### Technical Description:

The stainless-steel Ferrules are used to assemble hoses for high pressure. Ferrules need to be assembled on a crimping machine for permanent connection.

### Hose reference:

The correct combination of hose and ferrule can be found in the Mouldpro catalogue. The catalogue is also available on our website.

### Properties:

D: 15.9-30.5 mm  
d: 10-19 mm  
L: 17-33 mm

Material: Stainless steel  
(Specific models may be available only in Chrome plated steel.  
This is noted in the catalogue)
